

## **Corporate and Business Law Committee Vice Chair – Statement of Intent**

***Name of the Candidate:*** Aleksandar Vujošević  
***Company of the Candidate:*** Nelt

As Legal Affairs Director of Nelt Group, I see the role of the Corporate Law Committee as a platform for practical dialogue between all stakeholders on the market.

My intention as Vice Chair would be:

- Promoting corporate awareness on necessity of business models upgrading in accordance with EU trends;
- Proposing new legislative frames to ease business operations and make them more profitable;
- Advocate for administrative fees revision that burdens business owners on Serbian market.

Nelt's business strategy is built on sustainable growth and long-term partnerships, so in accordance with that I would bring the same perspective to the Committee: listening to members, identifying issues that affect the broader business community and helping translate shared experience into clear, constructive and actionable recommendations.

As a Vice Chair in Corporate Law Committee I see my role in fine tuning delicate balance between legislative framework and generating profit along with constant business growth.
