

Environmental Committee Vice Chair – Statement of Intent

Name of the Candidate: *Danijela Nedeljković Stojakov*

Company of the Candidate: *BDO*

I am putting myself forward for Vice Chair, bringing 20+ years of experience across architecture, real estate, energy efficiency, sustainability, ESG and sustainable finance. My environmental focus began with my MSc thesis on integrating renewable energies in architecture, followed by LEED training and further education in renewable energy management, ESG and sustainable finance. I have worked on energy-efficiency improvements, climate and environmental risks, sustainable asset scoring and reporting. In banking, I contributed to ESG policy implementation, ESG lending policy, green-project evaluation and classification of environmentally sustainable activities, as well as TCFD-aligned ESG reporting. As Vice Chair, I would bring practical experience from the built environment and financial sectors, support the Chair and proactively contribute to the Committee's agenda and action plans.
