

Energy Committee

Vice Chair – Statement of Intent

Name of the Candidate: Katarina Tomić Isailović
Company of the Candidate: Karanović & Partners

As a lawyer at Karanović & Partners specializing in energy, infrastructure, and regulatory, I have had the privilege of working with key stakeholders in Serbia and the wider region.

If elected, I intend to support the Committee's efforts to promote a more predictable and investment-friendly energy landscape in Serbia, with the aim of speeding up the green transition. I will also work to strengthen collaboration between the private and public sectors and contribute to the Committee's policy initiatives and advocacy efforts aimed at, among others, promoting electricity market entry to new entrants, such as active buyers.

I bring with me experience of advising international and domestic clients on legal and policy issues in the energy field, including capacity mandates aimed at improving regulatory and institutional framework, which would help achieve the Committee's goals.
