

Health Care Committee Vice Chair – Statement of Intent

Name of the Candidate: Marijana Vasilesku
Company of the Candidate: MediGroup

Running MediGroup has shown me daily how much untapped capacity sits on both sides of Serbia's healthcare system - private doctors ready to do more, pharmacies capable of far more than dispensing, and public institutions eager for real partners rather than parallel systems. As Vice Chair, I want to help close that gap: giving private-sector physicians a real role within the insurance system, and letting pharmacies take on basic preventive checks so doctors' time goes where it's truly needed. I'll bring the same discipline to how we spend on healthcare - backing quality over lowest price in procurement, and planning maintenance and stock like the long-term investment it is, not a recurring emergency. My aim is simple: a system that uses what it already has, better, for the patient's benefit.
