

Digital Economy Committee Vice Chair – Statement of Intent

Name of the Candidate: Marina Vrcalović

Company of the Candidate: Medigroup SEE

I am committed to continuing Digital Economy Committee Agenda with a strong focus on improving the efficiency of the current regulatory framework and cooperation between the private sector and public institutions to accelerate Serbia's digital development. Goal is to ensure legal clarity, accelerate digital infrastructure, align AI and cybersecurity with EU standards, enable flexible cloud use, and automate processes to boost efficiency and transparency. I will advocate for practical implementation of e-solutions, as for me, digitalization is successful only when it delivers tangible results for companies, institutions, and citizens alike.
