

Combating Grey Economy Committee Vice Chair – Statement of Intent

Name of the Candidate: Miloš Bogdanović

Company of the Candidate: MSA IP Law

As CGEC Vice Chair over the past term, I focused on strengthening the committee's anti-counterfeiting and anti-piracy agenda, including efforts to build Market Inspection capacity against software piracy and improve cooperation between Customs, IP owners and the judiciary. Working with state authorities and AmCham members, we advanced concrete proposals on seizure procedures, evidence-sharing and cross-border coordination. I would welcome the chance to continue this work, and respectfully put forward my candidacy to serve as the Committee's Vice Chair for the coming term, bringing my continued expertise in IP law, brand protection, anti-illicit trade and anti-piracy enforcement.
