

Energy Committee
Vice Chair – Statement of Intent

Name of the Candidate: Nenad Maksić

Company of the Candidate: Aik Banka

I would like to extend my nomination for the Vice Chair of the Energy Committee. As a representative of the banking sector, I believe there is a strong need for closer and more efficient collaboration across industries in the energy transition, for the benefit of the economy. AikBank, as the largest domestic bank with the support of an international group, has over €150 million in its pipeline for green energy and renewable projects, positioning us as a significant stakeholder. My focus as Vice Chair will be on advocating for improved regulation in the construction of renewable energy plants, where today's permit procedures remain lengthy and inefficient. I will also work on promoting stimulus measures to incentivize green construction, such as tax breaks and refunds, while advancing education of real estate investors on the financial and environmental benefits of sustainable building.
